

Netline (Pvt.) Ltd. and Hyundai Announce All Pakistan Partnership for Generators

Karachi, May 15th, 2018 -- Netline (Pvt). Ltd., the most innovative and dedicated residential Power company in Pakistan, and Hyundai Power, a leading global manufacturer of advanced generators, today announced a partnership to launch Hyundai's Power Products in the Pakistan market. Netline (Pvt). Ltd. will offer Hyundai's best-in-class Generators through its showroom(s), offering customers a complete solution from 1Kva to 120 Kva.

"The energy market is advancing at a breakneck pace especially with all the load shedding, consumers are looking for reliable superior quality products whether it be solar, a generator or a home UPS. said Marketing Manager Talha Khan. "We're thrilled to offer Hyundai's best-in-class generators to homeowners. The partnership with Hyundai supports our increasing market share, enabling our customers to install a top-notch generator with an affordable price."

Netline (Pvt). Ltd. is committed to sourcing and integrating the highest quality technology to ensure customers have reliable, high-performing Power Products. Hyundai Generators have a track record of performance success in the Asian market and offer durability at an affordable price point. The Netline (Pvt). Ltd./Hyundai partnership expands the application of Hyundai Power Products to the Pakistan market allowing more people access to affordable energy.
