Company Overview

Introduction:

Netline (Pvt.) Ltd. has been in business for over 16 years and now has placed itself in a unique position by providing total turnkey power solutions. Whether that solution is by supplying a UPS, Solar Solution, Generator, Voltage Stabilizer, Soft Starter, Isolation Transformer, or a Precision Air-Conditioner, you will always find Netline (Pvt.) Ltd. providing superior support before & after the sale at very competitive prices.

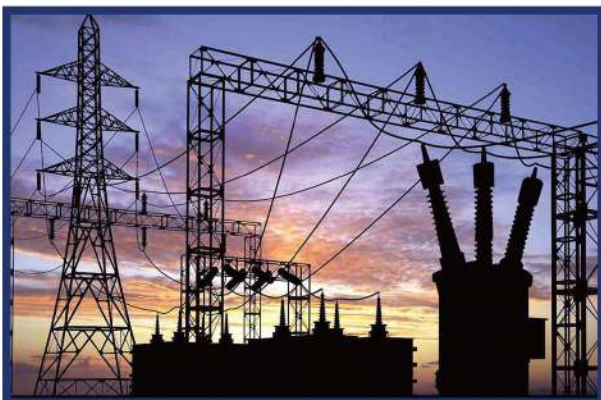

Our employees are a team of dedicated professionals trained to fulfill all your sale and service needs. We have factory trained teams for various divisions within our product line that are ready to meet any challenge.

With over 45 years of engineering experience, we assure you the best of services.

Sincerely,
Engr. Iqbal Zavary
CEO
Electronics Engineering - University of Houston (1972)

Specialist:

At Net-Line (Pvt) Ltd we live, eat, sleep and breath power. Most companies in the Power Industry are not focused as they usually have a diverse range of products and services. Whereas we take pride in the fact that we are a specialist only in Power.

Company History

About Netline:

When Net-Line (Pvt) Ltd was established in 2002, Pakistan was in the midst of a severe power crisis not only in terms of total power failures but also due to immense power degradation. Every company and every individual in Pakistan is a victim of this grand crisis. Moreover, we realized that most companies working in the Power sector are not professionals of the field and lack the understanding & experience to really solve any problems. With no real end in sight to these challenges the goal was simple for the newly established Net-Line (Pvt) Ltd. **Solve people's power problems and automatically the growth will follow.**

To achieve this goal we understood that we need to have access to established products and invest into professional people so that we can provide expert solutions to people's power crisis. As a result we signed distribution agreements with some of the largest and oldest manufacturers in the world like Socomec (France), Fiamm (Italy), Watford Control (UK), Yingli Solar (China) and many others.

Our Direction:

Then we hired professionals from the field and sent them to our Principle partners all over the world to acquire factory trainings. We also invited engineers from abroad to assist us in local installations so that we can learn from hands on experience by practicing in local conditions. After 16 years of **Supporting Power** we can confidently now claim that we are **#PowerExperts & #PowerSpecialists.**

Our Product Line

Created in 1922, SOCOMEC is an independent industrial group with a workforce of 2300 individuals. Their goal is providing, controlling & making low voltage electrical network secure. Their independence allows them to have a long-term vision & complete control of any decision affecting their development.

Our Product Line

FIAMM Energy Technology is a multinational company, active in the production and distribution of automotive and industrial start-up batteries, founded after the division from the FIAMM Group of the automotive battery industry and lead-acid industrial batteries. In order to be close to the needs of its customers, FIAMM Energy Technology can rely on approximately 20 commercial and technology locations distributed throughout the globe, including Italy, Germany, Switzerland, Great Britain, Slovakia, Austria, France, Russia, USA, Spain, Dubai, Singapore, Korea, Malaysia and China, together with a widespread network of importers and distributors. It operates with a total of a thousand people.

Our Product Line

Watford Control

With over 70 years of continuous manufacturing in the UK, and tens of thousands of products worldwide, it's easy to see why Watford Control are the world's leading brand of voltage stabilisers and voltage management systems.

Founded in 1969, ORTEA SpA is a leading company in manufacturing and engineering voltage stabilisers, magnetic components, electrical equipment and, as from 2014, automatic power factor correction systems.

Powertronix designs and manufactures Electrical Components and AC Power Systems for industrial OEMs, hospitals, and other organizations requiring high quality power supplies in the 10 VA to 30,000 VA power range. Products include Custom-made Toroidal Power Transformers, Coils, Inductors, Current Transformers, Unregulated DC Power Supplies, and UL Listed ISOLATION STATION™ series of Medical and Power Isolation Units, Power Line Conditioners, and Power Distribution Units. Products are UL, cUL & CE approved and marked, and compliant with IEC 601.1 safety standard

Our Product Line

Yingli Solar (NYSE: YGE) makes solar power possible for communities everywhere by using our global manufacturing and logistics expertise to address unique local energy challenges. As one of the world's largest solar panel manufacturers, our teams of local experts are empowering communities around the world to go solar. More than 85 million Yingli solar panels (representing over 20 gigawatts) have been shipped to more than 90 countries, including Germany, Spain, Italy, Greece, France, South Korea, China, Japan, Brazil, Australia, South Africa, Mexico and the United States. Our dependable solar panels have been proven to perform in diverse climates and environments nearly everywhere under the sun.

Yiyuan Electric Co., Ltd. is a high and new tech enterprise specialized in manufacturing electrical power products for power supply systems. Our main products are Automatic voltage regulators (AVR), Uninterruptable power suppliers (UPS), Inverters (INV), Emergency power source (EPS), Battery chargers and Battery Energy Storage System (ESS) etc. Our inverter is widely used in Commercial, Residential, Industrial applications including UPS market, utility market, RV market, renewable energy systems.

Güçbir Generator Company, is a leading and reputable company which achieved remarkable progress since being founded in 1980. Consequently with the improvements in the sector, Güçbir Generator Company has improved production capacities and enlarged into two plants in İstanbul with the highest technology and well skilled labor ship. Starting the production of alternators in 2006, the company has switched the plant for canopy production in 2012. Thanks to the production capacity, wide range of products; Güçbir Company is almost one step ahead from the competitors in the sector.

Our Product Line

SYSTEMS SUNLIGHT S.A. is a global player in the field of integrated energy solutions, specializing in the development, production and marketing of batteries and energy storage systems for industrial, advanced technology and consumer applications. In its 3rd decade of sustained growth, the company today ranks among the world's top providers of energy storage solutions.

Established in 1958, Chloride Batteries S E Asia is a part of the USD1bn battery manufacturing group. The 7 state of the art manufacturing units makes CBSEA well equipped to attain a position of leadership in the automotive and industrial battery market throughout the Asia Pacific region

HITACHI

The "Hitachi Chemical Group Identity" is the globally shared structure of our philosophy and values, established to strengthen our group's teamwork beyond regions and business fields.

Hitachi has developed and supplied creative materials in response to the various needs and challenges of the society. Binding all the strengths of our group, we will create new innovations in the global market.

Our Product Line

We aim to be renowned pioneers in innovative and viable power solutions through our products and services, with an assurance of unparalleled quality thus providing utmost value to our clientele. We pledge to be collaborators towards a prosperous society through optimum and sustainable use of all resources, in harmony with nature. Our goal is to be recognized as the number one battery supplier most admired for our integrity, meticulous performance and zealous personnel.

HYUNDAI

The brand Hyundai is undoubtedly synonymous with state of the art merchandising and unparalleled professional caliber. Moving way beyond the Korean shores, today Hyundai with a worldwide sales network in over 193 countries, has a standing of its very own in the USA, UK, Europe, UAE and South Asia.

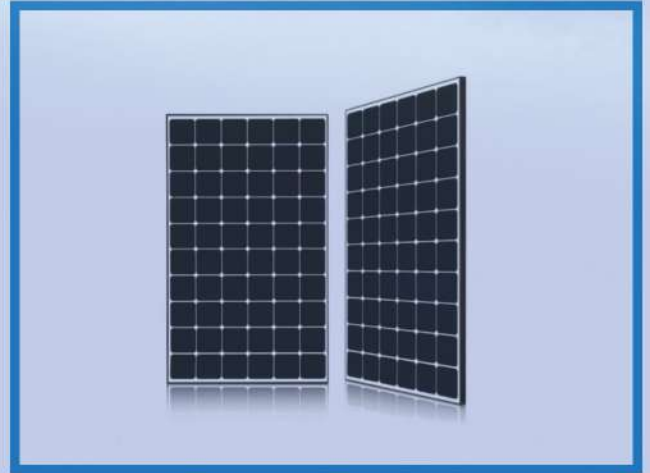

Vision Group has been one of the largest battery manufacturers in the world. We are one of the largest and the first one to develop and commercialize the VRLA Battery with brand name VISION all over the world. With 20 years of development, Vision has three industrial locations in Shenzhen, Hubei and Vietnam. Today, we have more than 3,500 employees, and the total production capacity is more than 3,300,000 KVAH per year.

Solar Energy A Bright Reality:

We are dedicated to service Pakistan by providing clear and affordable electricity through our Solar Energy products for all types of applications. For this purpose, we have collaborated with the world's leading solar specialists.

Solar Energy Systems are more successful in Pakistan than many other countries because we have sunlight available throughout the year. Today in Pakistan, we are facing shortages of almost every basic necessity of life; like, water, gas & especially electricity. In some areas electricity is a blessing, which is given to us in the shape of SOLAR ENERGY. It is high time that we focus on our future and consider solar energy as a viable prime source of power. With little effort & initiative we can secure our generation's future.

Solar Power Solutions Turnkey Projects Management:

Netline (Pvt.) Ltd. offers planning of solar projects, PV installations & full support with capacity of up-to 1000KVA.

We make use of our experience in the area of technology, service & our strong partnerships with leading manufacturers to provide our customers with consulting, planning, designing, PV installation for system start-ups and after sales' support. We are the trusted & leading on-going partner for many photovoltaic projects currently going on in Pakistan.

Commercial Solutions:

Many of our existing customers are enjoying being free of an electricity bill & saving on productivity loss due to load shedding by installing Solar Solutions from 1kVA to 60kVA. These installations were successfully made on ATM Machines, Schools, Universities, Mosques, Islamic Institutes, Offices, CNG Stations & Small Industries. These customers are enjoying clear power through the day as well as in the night through Battery Backup. In most cases the return on solar system investment is less than two years, whereas, the solar system comes with a 25 year guarantee.

Technical Support:

Technical team at Netline (Pvt.) Ltd. has foreign qualified engineers, who have received training from France, Italy, Singapore, UK & USA.

We provide pre-sales and after sales technical support services & on site assistance for users of our power products & for other makes of power conversion equipments as well. Customer services is a vital aspect of our company policy. Most of the staff is professional in their field with years of experience.

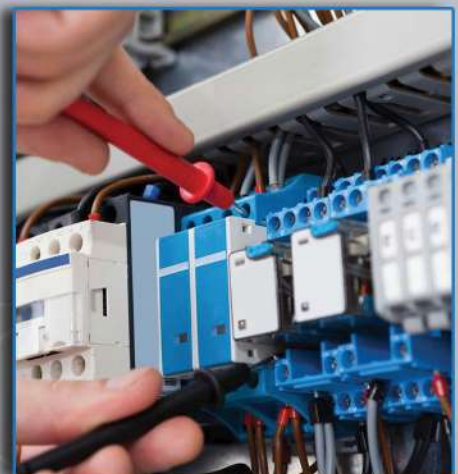

Maintenance Contracts:

Netline (Pvt.) Ltd. also offers unique pro-active maintenance services such as; annual preventive maintenance, Pro-active load measurement to prevent overloads; Pro-active runtime test to ensure that backup time is sufficient & back-up units in case of major failure in power equipments.

24/7 Emergency Services:

Netline (Pvt.) Ltd. specializes in providing services 24 hours a day, 7 days a week & 365 days a year for all power products. We have trained engineers and technicians who are qualified to provide services to a variety of power equipments. They are fully trained to cater emergency services, preventive maintenance and battery replacements for all major brands, such as, Socomec, APC, Liebert-Emerson, MG Power ware-Eaton, G.E and many more.
